NEW YORK CLE BOARD APPROVES APEXCLE INTERNET DELIVERY METHOD

(CHICAGO) ApexCLE

The New York Continuing Legal Education Board adopted the attendance verification method implemented by ApexCLE.com in early 2007. Our system embeds a code within the program which is recorded and returned to ApexCLE in order to verify the participant's attendance.

ApexCLE's outside counsel proposed this method to the NY Board and discussed at length the various technologies available to confirm the participation of attendees in a video and online setting. The NY Board has recognized the value of online education and adopted a validation code model.

ApexCLE is an Illinois CLE MCLE Approved online legal education company creating state-of-the-art continuing legal education "CLE" programs delivered via the internet for viewing on a Blackberry, iPod, computer, television or any other video device.
